

## **The Little Cabin in the Mountains**

*An Inspiring Story of Maharishi Vastu Building From the Hatchard Family*

A few years ago we were encouraged to leverage our meagre funds and borrow enough to build an educational facility to create National Invincibility for New Zealand. Maharishi had said that New Zealand could create enough coherence for the whole world to rise to Invincibility. Now you must understand that our funds were really meagre, so we wondered how we could respond to Maharishi's suggestion. Somehow four years ago we went ahead and bought an acre of land in the southern alps of New Zealand. Then borrowed thirty thousand dollars from the bank to build a small one room cabin. We consulted Maharishi Vastu Architects and we built using natural materials according to the placement, proportions, timing, and entrances prescribed for maximum good fortune. We enjoyed building it and we enjoyed living in our little cabin, but before too long we realised that we needed to move on to something bigger. So we reluctantly sold our cabin to a young man from the locality. We were much dismayed when he took possession of the house, moved in with crates of beer and packets of cigarettes and then somewhat brusquely wished us on our way.

Just this week, a year later, we visited our former cabin. The new owner rushed out to greet us. He was visibly changed, almost a different person. He looked healthy and happy. He waxed lyrical concerning the virtues of the little cabin. He recounted his experiences of support of Nature since moving in and the ease with which he had found ample work (in a time of recession). He told us that his circle of friends admire the cabin—last summer he had 18 friends come to stay with him at one time. He took us on a tour of the small property and wished that we would come back often. Then we talked to the neighbours and found that the whole locality of the cabin was alive with harmony,

building activity, and co-operation among neighbours. Remarkably everyone was beaming with happiness.

From this experience we fully appreciated what a powerful technology to transform the world Maharishi has given us. Every one of us can build a house in accord with Maharishi Vastu and transform their neighbourhood and ultimately our dear world. Maharishi Vastu Vidya—Vedic Architecture in accord with Natural Law—is just one of many Vedic technologies that Maharishi revived and restored during his lifetime to bring about the rise of a new age of enlightenment, health, happiness, and peace for all nations. We can build Maharishi Vastu homes for ourselves of course, but we can also build to sell to others. Our experience shows that the healing and nourishing effect of Vastu is there even if the occupant does not fully appreciate the profound knowledge of Vastu.

Fortunately in New Zealand many Governors and Sidhas have built in accord with Vastu or worked on projects to create coherence for the nation. Now we are able to follow in these footsteps since the sale price of the cabin will enable us to buy more acres where we hope to start an educational facility to bring permanent coherence to New Zealand and the world. We are so inspired by this experience that we want to encourage everyone everywhere to quickly build Vastu homes for sale to fulfil Maharishi's vision of an invincible world family of nations.

***We can begin today, the effect will be there whether anyone believes us or not. The world is going to be better and better and one day the best.***

***Jai Guru Dev***
